

Updates

Steady progress continues on the Fitness Center expansion. We hope to see the roofing completed shortly which will help to keep the project on track. The exterior infill of the walls should also be complete shortly with the windows to follow in the next two weeks.

We really appreciate your patience, especially with the work that has gone on inside. With the limited space and one unusable exit in the Fitness Center, we have to continue to pay close attention to the number of members using the room. We want to be sure that our members

have a safe environment to work out in. With this being said, we would encourage members to use the alternate equipment in the hallways. We would also encourage anyone that has the flexibility in their schedule to avoid the busy evening hours between 6pm and 9pm Monday through Thursday. We appreciate your patience as we continue to work on expanding the Fitness Center for you.

What to Expect

Next Week:

- Roof installation to finish
- Window installation to begin

Near Future:

- Enclosure of the new space
- Exterior Stucco to begin

Impacts to Members

With the construction of the expansion's frame and addition of the roof we anticipate that there will be some additional noise coming from the exterior of the building. We also expect some large trucks to be unloading in the construction area, so there may be some delays driving through the parking lot.

Tell Us What You Think

While we anticipate some impacts during construction, the staff at the CRC is committed to mitigating these impacts as much as possible. Let us know how we are doing, by filling out a comment card, talking to our staff, or emailing us at chris.ghione@mhcrc.com. We really feel the final project will be "worth the weight".
